IS-04 Access Control Policy

Owner: Chief Information Security Officer **Approved:** 12 February 2026 by the IT Steering Committee
Next review: February 2027

1. Purpose

This policy defines how access to ACME information systems is requested, approved, reviewed and removed, to protect the confidentiality and integrity of company data.

2. User access provisioning

2.1 All access must be requested through the ServiceNow access request form and approved by the user's line manager and the system owner before it is granted.

2.2 Privileged (administrator) access requires additional approval from the CISO and must use a separate named admin account.

3. Passwords and authentication

3.1 Passwords must be a minimum of 12 characters and meet complexity requirements.

3.2 Accounts must lock after 5 invalid logon attempts.

3.3 Multi-factor authentication is mandatory for remote access and all privileged accounts.

4. Removal of access

4.1 Access for leavers must be disabled within 1 business day of the termination date recorded in Workday.

5. User access reviews

5.1 System owners must review user access quarterly and remove inappropriate access within 10 business days.
